

How You May Have a Really Fine Complexion

Says Buttermilk Cream and Soap Used Each Night Before Bedtime Makes Complexion Soft, Smooth and Beautifully Clear.

The old-time application of buttermilk and cream to the face and neck to remove blemishes and wrinkles and to give the skin a soft, smooth and beautiful complexion is again being used in the form of a beautiful new cream and soap that ensures a beautiful complexion and soft, smooth skin. Both of these truly wonderful toilet preparations can be obtained at any first class drug or toilet goods counter by simply asking for Howard's Buttermilk Cream or Howard's Buttermilk Soap.

Each night before retiring the face should be cleansed with warm water just enough for the heat to be pleasant to the skin and using Howard's Buttermilk Cream Soap. Dry and rub gently using a little friction. When the skin looks pink and clear and soft and smooth, you will find that it is necessary to keep away from the sun and wind. Simply ask your favorite drug or toilet goods counter for Howard's Buttermilk Cream or Howard's Buttermilk Soap. If you cannot obtain locally send 10 cents (silver) for a box of Howard's Buttermilk Cream or a box of Howard's Buttermilk Soap. Co., Buffalo, N. Y.

BETTER PROFESSIONAL TRAINING FOR TEACHERS

Boston, July 3.—The fact that residents of rural communities are no longer satisfied with an education inferior to that offered to city people and the necessity of more and better professional training for teachers were the central ideas voiced today at the first official sessions of the National Education Association's annual meeting. At the evening session, Miss Charles O. Williams, president of the association, delivered her presidential address on "The democratic awakening and professional education."

United States Commissioner of Education John S. Tigert declared that woman's right to participate in government called for a new type of education for her. He said that vocational education was far more necessary now than in the past.

BOSTON CONCERN SEES RECOVERY OF \$215,135

Boston, July 3.—A bill in equity was brought in superior court here today by Cochrane, Harper & Company, trustees of the Mexican Petroleum Company seeking the recovery of \$215,135 alleged to have been paid for crude petroleum that was not delivered.

The bill alleged that the contract with the oil company was to have run for 10 years and that it called for the monthly delivery of 435,440 barrels of crude petroleum. The plaintiff says that after they received 1,163,715 barrels the "Hermion" well in Panuco, Mexico, went dry.

FOUR MILLION DOLLAR FIRE AT BALTIMORE

Baltimore, Md., July 3.—Fire which swept the Locust Point river front of the Baltimore & Ohio railroad last night caused damage estimated by the company at \$4,800,000, and seriously threatened the public health service hospital at West McNichols.

Two elevators, containing 1,211,000 bushels of grain, were damaged and piled loaded with merchandise, a power house, drying and freezing and other structures, crumbled within a furnace, that stretched along the waterfront over an area of six city blocks. Two firemen were severely injured.

MANGLED BODY FOUND BESIDE RAILROAD TRACKS

Thompsonville, Conn., July 3.—The mangled body of a man believed to be John Clark, of Quincy, Mass., was found close to the tracks here today, several hours after it had been found by the Owl Express. John Whalen, of Hartford, identified the body which was badly mutilated, as that of the Quincy man.

MURDERED WOMAN'S BODY FOUND IN BACK YARD

Waterbury, July 3.—The dead body of Francesa Brist of 49 Jefferson street, aged about 35, was found Saturday morning in the back yard of 4 Ann street, early this morning. A bullet hole in the head indicated that murder had been committed. Coroner John T. Monahan and the police are investigating.

300 RAIL STRIKERS RETURN TO WORK

Boston, July 3.—Boston and Maine railroad officials stated tonight that 300 strikers who quit work Saturday returned to work today and that more had made applications for their old jobs. Most of these men are car cleaners, it was said.

REQUESTS MILLION FRANCES TO ACADEMY OF SCIENCES

Paris, July 3.—Prince Albert of Monaco, whose death occurred here a few days ago bequeathed 1,000,000 francs to the Academy of Sciences, of which he was a member.

DIED

William, 15, son of Catherine Deane and Richard W. Allen, aged 3 years.

CITY COMMISSIONERS FOR PLAYGROUNDS; JENSEN RESIGNS FROM GAS COMMISSION

Ordinance to establish a playgrounds commission, make it possible to eliminate growing roosters within the city limits and stop dumping rubbish on city property were in the business transacted at the July meeting of the common council Monday evening. The macadamizing of two streets and the building of four sewers were also ordered.

Mayor M. R. Waters called the meeting to order at 7.15, with all the members except Councilman William B. Silas present.

Invited to Greenville.

The council accepted an invitation presented through Councilman Edward Crooks to review the horrors parade in Greenville on Fourth of July morning and hear the band concert in the evening at the corner of North Main and Fifth street.

Signs at City Entrances.

The public works committee recommended that the request of the chamber of commerce to have signs erected at five entrances to the city at a cost not exceeding \$200 be carried out.

The signs are to be 14 by 38 feet. The committee is in favor of the committee recommendation.

Lunch Cart to Stay.

The same committee reported on the protest of Peter Selias against allowing the lunch cart of Edward F. Price to stand in Rose place. Their report stated that Mr. Selias had not objected to the cart in the past, but that it had been in the street for some time and that it was a nuisance.

On recommendation of the public works committee it was voted to constitute Alderman Gilbert S. Raymond, Councilman W. W. O'Leary and John J. Fitzgerald a committee to hold the following items in the amount approved in the annual city meeting: Hamilton avenue, \$2.00; Bowdoin avenue, \$5.00; York avenue, \$4.00; Laurel Hill avenue, \$3.00.

The public works committee reported favorably upon petitions for the acceptance of Sylvania avenue and Tyler avenue as public highways and hearing was set for the common council meeting August 7.

The public works committee recommended that petitioners for a street light on White street be given leave to withdraw, which was voted.

Carnivals to be Allowed.

The amusement committee reported on the petition of Valentine Reich and others which was a protest against allowing carnivals to come to the city. The committee reported that it had also received a petition from Charles Riley and others which was in favor of carnivals and it believed the carnivals should be allowed under certain regulations. These were that there should not be more than one carnival in the city at one time and that no ten days before date of arrival, that proper sanitary conditions should be maintained and that proper police protection should be provided by those conducting the carnivals, at all times and not merely during performances. This was voted.

Reference in City Week.

The council accepted and adopted a report of the public works committee favoring a resolution providing that preference in employment shall be given to citizens of the United States and taxpayers of the city in any work where labor is required by the common council or its committees except where specified contracts are entered into by the council or its committees.

Corporation Counsel William H. Shields presented a report on the petition of the city of Norwich to lay a private drain at 35 South street was referred to the public works committee.

Rubbish of Playgrounds.

The council passed a resolution that city departments remove as soon as possible all such material or deposits as they may now have on the Lake Street playground.

Mayor Waters, Alderman P. F. Sweeney and Councilman W. B. Shea, who are the finance committee, were made the committee to make out the rate bill for the city tax.

Councilman Against City.

The council voted to pay to John H. Barnes, attorney for Mrs. Margaret Fitzgerald, the sum of \$2,388.94 in full settlement of the judgment she secured in the superior court against the city.

Alderman Sweeney explained that this sum was brought to court through a fall on ice on the sidewalk and it would cost \$150 to print the evidence if the city meant to take an appeal. Besides, it was the advice of the corporation counsel that the city would stand no chance on an appeal.

It also makes it a misdemeanor, punishable by a \$5 fine, for any person to keep a rooster in this city in such a manner as to be a nuisance to other citizens. It is a source of annoyance to other citizens if a rooster is kept in the city and it is a source of annoyance to him or her by such other person that his rest is disturbed thereby.

Alderman Sweeney stated in making the motion for adoption of the ordinance that there were many complaints received about growing roosters, but under the present conditions the city attorney is powerless to do anything. This would give him the needed power.

Alderman Crooks raised a laugh when he asked if the committee had anything to say to cats in the night season.

Recreation Committee.

Alderman Sweeney of the finance committee presented an ordinance establishing a recreation commission to have charge of the Lake street playground and such public playgrounds, baths, swimming pools, excursions and recreation places, except in any public park as may hereafter be established in the city. A hearing will be held on the ordinance.

Hope for Fair Weather.

With fair weather today, many people of the city will spend the day at nearby beaches. Several parties have been formed to spend the day at Ocean Beach, where they have bonds of \$50 each for their appearance in court next Saturday morning.

The men arrested were West Hill residents, Albert Alexander, Obit. Peter Kromer, Victor Skjold, and Joseph Stancovich.

Dr. Pitt's Family Near Beach Bend.

Rev. Dr. David A. Pitt, pastor of the Central Baptist church, is among those who will spend the day at Ocean Beach. Dr. Pitt has bought a farm near Beach bend, Voluntown, and with Mrs. Pitt, their four sons and his father-in-law, Dr. Hanna, is occupying it for the season.

MOOSE CARNIVAL OPENS ON THE BATTLE GROUNDS

The Moose Carnival opened up its big carnival on the battle grounds Monday night on the battle grounds. Although the show and rides were late in getting up, they all opened up by 8 p. m. and a good crowd attended all the shows.

The ride did not even start until after 10 p. m. and the late hour they started. One of the features of the carnival was the "Jungle Land" with its wild animals and reptiles. A very good business was done by Happy Walter Martin one of the younger men in the show world, who handles dead reptiles and animals with a very pleasing and instructive lecture on snakes and their habits. Prof. Martin's known snakes and alligators probably better than any showman in this line today as he has been in the show business for many years and has been in the show business for many years and has been in the show business for many years.

The Moose committee have made arrangements with Mr. Anderson and Mr. Martin to have an afternoon set aside for the children who are in the two children homes to come down and have one big time on the merry-go-round, whips, Ferris wheel and see planes, the circus sides, and other shows. A great big time is promised to all these children and the day set aside will be Thursday afternoon.

The California shows will send their touring cars to the children's homes and bring the children down, give them a wonderful time and bring them back home. The children's homes are in charge of the children's afternoon, so all are invited to be there and help make a wonderful big day for all concerned. Don't fail to get the day, Thursday.

PAID \$1 MILLION TO STATE SERVICE CORPORATIONS

Thirty-one million dollars was spent by the people of Connecticut last year for light, heat and motive power, it is revealed by the official figures of the state treasurer by the board of equalization of the amount of tax levied on public service corporations during the 12 months ended Dec. 31, 1921.

From the figures it was evident that this class of public service corporations, as a whole, held its own during the year of business adjustment, although there was a drop of \$1,000,000 in the total amount of public service corporations of all kinds for which steam railroads were largely responsible.

The gross earnings of all public service corporations in Connecticut aggregated approximately \$110,000,000. Steam railroads earned \$50,000,000; street railways, \$15,000,000; telephone companies, \$11,000,000; electric companies, \$10,000,000; gas companies, \$10,000,000; and electric and power companies, \$10,000,000, and water, water power and electric and water companies, combined, \$10,000,000.

The amount of tax levied against all public service corporations, and due July 15, is \$1,100,000, according to the figures filed by the state treasurer's office. Notwithstanding the decrease from \$1,200,000 in 1920, the tax on street railways made by the last session of the legislature, the aggregate for this year represents a drop of only \$275,469 from the amount levied last year.

Exclusive of the back taxes, the biggest drop in public service taxes, based on last year's income, came in the levies against street railways, the drop being \$1,000,000, or 10 per cent. The decrease was accounted for largely by the sharp cut in the tax rate. The second greatest decrease is in the tax on steam railroads, being \$800,000. The taxes levied against the different classes are as follows:

Steam railroads, \$1,749,991.49; electric street railways, \$465,006.84; express companies, \$22,219.90; telephone companies, \$10,000,000; gas companies, \$10,000,000; electric and power companies, \$10,000,000; water, water power and electric and water companies, combined, \$10,000,000; electric and power companies, \$10,000,000; water, water power and electric and water companies, combined, \$10,000,000.

MISS DOROTHY L. HENKLE AWARDED SOBRONNE DIPLOMA

A cable was received in New London Monday that Miss Dorothy Lucille Henkle, a student of Connecticut college, class of 1921, has been awarded a diploma superius by the Alliance Francaise at the Sorbonne University of Paris, France, where she has been studying French since last November.

Miss Henkle is the daughter of Dr. and Mrs. E. A. Henkle of Neptune Park and was graduated from the Connecticut college in 1917. She entered Connecticut college the fall of that year and during her four year course there specialized in French, winning department honors at commencement. She went abroad last November.

Miss Henkle will take a six week course in French history and literature at Grenoble university in southern France before returning. She expects to sail for home the first of November.

SUMMER COURSES FOR HOUSEWIVES

The Connecticut Agricultural college announces a series of short courses for women during the weeks beginning July 10th, 15th and 24th. These courses are of two types—special courses in subjects particularly of interest to women and courses dealing with more general problems, or with special phases of agriculture.

The courses are so planned that any one may take up the work of any week as a separate unit, but may plan for a two or three week stay without duplicating any course. Much of the work is practical work in the laboratory.

The daily program is so arranged as to conflict in time with certain courses on community problems, which are of interest to all. Courses involving laboratory work come mainly in the morning and end early afternoon hours.

For further information regarding these courses and pamphlets giving program, write to call Farm Bureau Office, 13 Shattuck building, Norwich. Telephone 513-113.
